BEHAVIORAL

# Explain Job Changes

**CORE IDEA**

**A practical worksheet for explain job changes using evidence-first STAR structure.**

## Answer structure

+ Headline
+ Situation and constraint
+ Your decision
+ Actions and communication
+ Result and evidence
+ Learning and later reuse

## Reviewer questions

+ Is the candidate's action visible?
+ Is the company/title context translated?
+ Is the result supported without invented precision?
+ Does the example match the target seniority?

## Practice prompts

- [ ] Tell me about a technically difficult decision you made with incomplete information.
- [ ] Describe a conflict where you changed your position after new evidence.
- [ ] Tell me about a failure that changed a durable engineering practice.
- [ ] Describe a time you improved an outcome without formal authority.
- [ ] Tell me about a customer or internal-user problem you initially misunderstood.
- [ ] Describe an ambiguous project and how you created alignment.
- [ ] Tell me about a tradeoff between speed and quality.
- [ ] Describe a time you raised a risk others did not yet see.
- [ ] Tell me about a project you simplified or stopped.
- [ ] Describe how you handled a remote communication breakdown.

**GLOBAL FRAMING**

**Translate Indian company, title, and scope context in one sentence; spend the answer on decisions and evidence.**
