Airbnb Interview Question Bank

CORE IDEA

Practice bank for Airbnb, calibrated to two-sided travel marketplace and the published signals available for review.

Public-context emphasis

+ marketplace trust
+ product sense
+ cross-functional impact

How to use this bank

+ Treat prompts as original practice
+ Do not expect exact repeats
+ Calibrate to role and level
+ Verify current process with recruiter

EVIDENCE BOUNDARY

No observed-frequency claim is made unless a named reviewer verifies it in the source ledger.

Question bank

Airbnb Interview Question Bank

#	Area	Priority	Original practice prompt
1	DSA	Core	Design an algorithm to identify the top-k rapidly changing signals in a two-sided travel marketplace workload.
2	DSA	Core	Given a stream of events from two-sided travel marketplace, detect duplicate or out-of-order records within a bounded window.
3	DSA	Supporting	Model dependencies between services or jobs and return a valid execution order or explain why none exists.
4	DSA	Supporting	Find the shortest transformation or routing path in a graph representing a two-sided travel marketplace product.
5	DSA	Supporting	Merge overlapping time ranges and explain boundary behavior for scheduling or availability data.
6	DSA	Supporting	Build a prefix or trie-based lookup suitable for user-facing search or configuration keys.
7	System design	Core	Design a multi-region service for two-sided travel marketplace; state consistency and failover behavior.
8	System design	Core	Design an event ingestion pipeline for two-sided travel marketplace with retries, deduplication, and replay.
9	System design	Supporting	Design a rate-limiting and abuse-control layer for a public API in two-sided travel marketplace.
10	System design	Supporting	Design a low-latency read path with caching; explain invalidation and hot-key handling.
11	System design	Supporting	Design an audit-ready state change workflow where partial failure cannot silently lose an update.
12	System design	Supporting	Choose a partition key and migration plan for a rapidly growing two-sided travel marketplace dataset.
13	Behavioral	Core	Tell me about a time you demonstrated marketplace trust under an ambiguous constraint.
14	Behavioral	Core	Describe a decision where product sense conflicted with delivery speed. What evidence guided you?
15	Behavioral	Supporting	Give an example of improving cross-functional impact after an incident, customer problem, or failed launch.
16	Behavioral	Supporting	Tell me about a disagreement with a senior stakeholder. How did you represent the other view and reach a decision?
17	Behavioral	Supporting	Describe a project whose result was weaker than expected. What did you change in your operating approach?
18	Behavioral	Supporting	Explain a cross-team outcome you influenced without direct authority, including the mechanism that lasted afterward.

Company emphasis and source ledger

Evidence gate

Domain context

+ two-sided travel marketplace

Interview signals to verify

+ marketplace trust
+ product sense
+ cross-functional impact

Candidate calibration

- [ ] Confirm role family and seniority
- [ ] Ask recruiter for the current interview loop
- [ ] Practice clean code and tests
- [ ] Prepare two domain-relevant system designs
- [ ] Map eight evidence-rich behavioral stories
- [ ] Do not memorize unverifiable leaked questions

PUBLISHING STATUS
REVIEW GATE: PUBLIC SOURCE SUFFICIENCY. AI-produced draft. A named human must verify technical accuracy, sourcing, freshness, and editorial quality before publication. Reviewed-through date: 2026-07-18.
